

# Our latest cost-effective **AXIAL EXTRACT** fan range

High performance with flexible,  
simple installation options

- High energy efficiency
- Low running costs
- Aesthetically pleasing
- Low noise levels
- Meet Building Regulations

Nuaire's latest range of axial fans are a simple and cost-effective ventilation solution for houses and apartments. This range is ideal for air-extraction in bathrooms and toilets, as well as utility rooms and kitchens.

Suitable to extract stale air directly to the outside or through short length ducting, the units can be wall/panel, ceiling and window mounted.

*Quiet. Modern. Discreet.*
